### EDUCATION

Expected December 2026

2022-2026

UNIVERSITY OF ARKANSAS

- Ongoing, Computer Science Bachelors
- Completed Minor in Sociology

2021-2022

SOUTHWESTERN UNIVERSITY

- Computer Science Major

### INTERESTS

- Full-Stack Development
- Networking / Systems Programming
- Game and Interactive Systems
- Computer Graphics

### TECHNICAL SKILLS

- Programming Languages
- Java, C++, Javascript, Python, Command Line, Cuda, Html
- Frameworks/Libraries/Tools
- JFrame, Github, Git, Unity, Pytorch, PostgreSQL
- Currently learning Spring, Angular

### PROFILE SUMMARY

Computer Science Student at the University of Arkansas, seeking a summer 2026 internship to expand programming and software development experience. Experienced as an IT technician with leadership and teamwork skills, including being on student council and basketball team captain.

**Relevant Classes:** Software Engineering, GPU Programming, Computer Graphics, Programming Paradigms, Programming Foundations II.

### RELATED COURSEWORK

#### Software Engineering Team project

JAN 2026-PRESENT

Python

- Collaborated in a team to design and implement a multi-window software system for a laser tag game
- Practiced version control(git), agile sprints, and clean code principles in a team environment
- Integrated with PostgreSQL database to manage player info and scoring logic
- Implemented network communication via UDP sockets for real-time game data transmission
- Developed GUI for player entry and gameplay, synchronized timers, and event-driven gameplay logic

#### Terrain Modeling

Feb 2026

OpenGL/ C++

- Created realistic 3D terrain surfaces with elevation-based color mapping for a flight simulator-style application.
- Implemented diffuse lighting using Phong shading and allowed multi-view rendering of terrain.
- Applied mathematical modeling, array manipulation, and graphics algorithms for natural looking environments.

### JOB EXPERIENCE

2019-2025

- IT Technician - Southwestern University - Texas-** Installed and configured Ethernet cabling, routers, switches and wifi access points, also diagnosed and resolved hardware, operating system, and network connectivity issues
- Audio/Visual Technician - Springdale Church, Arkansas-** manage audio systems, cameras and visual displays, also troubleshoot audio, video, and streaming issues in real time
- 28 Springs - Server - Siloam Springs, Arkansas-** Delivered excellent customer service in fast-paced environments, demonstrating strong communication and problem-solving skills.
- Club Car Wash - Fayetteville, Arkansas-** Collaborated with team members to ensure smooth operations and efficient workflows.
- Sonic - Carhop - Gentry, Arkansas-** Managed multiple tasks simultaneously, showing time management, organization, and attention to detail.
